Specialized Education, Training and Projects

Nurse in Washington Internship

In March of 2008, I traveled to Washington D.C. on behalf of Seton Medical Center and the Emergency Nurses Association to attend the Nurse in Washington Internship. This internship was designed and implemented as part of a national alliance of over 50 different nursing organizations. These various nursing organizations collaborated to promote a cohesive voice with policymakers to address issues of concern to the community of nursing. I met with our Senators Kay Bailey-Hutchison and John Cornyn's Healthcare Legislative Assistants to discuss the importance of the Nurse Reinvestment Act and the crisis in nursing with respect to shortages, lack of funds for educators and health insurance for retired nurses.

Sexual Assault Response Team Internship

In February 2009, I began an internship with the Williamson County Sexual Assault Response team under the direct supervision of Avangelina Barefoot, RN, CA-CP SANE. This internship

spanned three months and focused on assisting survivors of sexual assault through a multidisciplinary team approach.
